Acquisition of knowledge is the noblest and worthiest attribute of mankind. The present globalization has increased emphasis on practical implementation of knowledge. Allah Almighty has framed this principle in Holy Quran which constantly encourages the use of intellect and invites people to think, investigate, and analyze.

Since its inception in 1954, the Board of Intermediate and Secondary Education, Lahore, has remained committed to its mission of providing transparent assessment services since poorly examined knowledge falls short of the credibility benchmark. The BISE, Lahore understands its role in the Education System of Pakistan and has promising initiatives to undertake for better evaluation and assessment system.

Dr. Mirza Habib Ali

History of BISE Lahore

At the time of creation of Pakistan in 1947, the examinations pertaining to Matriculation and Intermediate were conducted by the University of the Punjab. Through the promulgation of the Punjab University Act (Amendment) Ordinance 1954, the Board of Secondary Education, Punjab, was established in the province which took from the said university control of examinations of Secondary, Intermediate and Pakistani & Classical Languages. Through a second enactment, this body was restructured under Punjab Act No. XIII of 1976 as Board of Intermediate and Secondary Education, Lahore. Presently, this autonomous body is functioning under Punjab Boards of Intermediate and Secondary Education Act, 1976.

The Board is charged with the great responsibility of being trustee of a tradition and serving as a model for other Boards of the Punjab that were established in due course of time. It is also termed as the 'Mother Board' and serves as the Camp Office of the Punjab Boards Committee of Chairpersons. It is always in coordination with the Higher Education Department for continuous improvement in conduct of examinations, use of digital technology, enhancement of public facilities and upscaling of professional and administrative structures in order to optimize service delivery.

The BISE Lahore comprises an old building, a “six-floor” main building and a cluster examination centre on a total area of 43 Kanals. It caters to almost one million candidates of SSC & HSSC examinations in the Lahore division. This body corporate has inbuilt strength and is not dependant on any governmental aid. We

humbly announce that we are ready to undertake new initiatives for institutional development and to become an ISO certified organization, Insha Allah.

End Note by the Secretary, BISE, Lahore

I would like to whole-heartedly thank all my colleagues for their consistent support and understanding during the Covid-19 pandemic period. No doubt, it was a hard year for all, but owing to united and concerted efforts by all concerned, Alhumdulillah, we have been able to manage all our functions and operations with complete satisfaction of our Controlling Authority and the Higher Education Department. Sincerest thanks are due to our administrative staff involved in public dealing for their selfless devotion, untiring efforts, and consistent hard work in not only performing their functions but also ensuring that Covid SOPs and protocols are followed to the strictest standards. May the Almighty Allah relieve us of this pandemic and keep us all safe and give us the strength and determination to conduct examinations and determination of results. Ameen.
